Hon'ble Union Minister
Shri Jyotiraditya M Scindia

Hon'ble Minister of State

MOBILE CYBER SURAKSHA

1. Keep record of IMEI Number to help in registration of complaints and tracing of handset in case of loss or theft.

2. Always lock phone or enable keypad passcode to restrict access to your phone.

3. Turn off applications [camera, audio/video players] and connections [Bluetooth, infrared, Wi-Fi] when not in use to reduce security threats and save battery.

4. Update the mobile operating system regularly.

5. Always install applications from trusted sources.

1. Never leave your mobile device unattended.

2. Never put Bluetooth in always discoverable always-on mode. Attackers may take advantage of default settings to launch attacks.

3. Never connect to unknown or untrusted networks.

4. Never keep sensitive information like user names/passwords on mobile phones.

5. Never forward virus affected data to other mobiles.
